

APPENDIX

VERSION WITH MARKINGS TO SHOW CHANGES MADE

IN THE CLAIMS:

The claims are amended as follows:

10.- Device, as in claims 5-~~or~~6, wherein flow regulation and two-way damping means (67) are inserted in the conduits that connect the central device with each of the hydraulic rams at the wheels, or in the conduits between hydraulic rams of conjugated wheels.

14.- Device, as in claim 6-~~and~~8, wherein some means are provided to introduce pressurized gaseous or hydraulic fluid in the central cavity, or drain it, with the purpose of varying the average distance between the wheels and the vehicle body.
